Gurleen Singh

gurleen.singh@drexel.edu ❖ (267) 255-6806 ❖ Philadelphia, PA ❖ https://gurleen.dev/

EDUCATION

Drexel University   **Anticipated Graduation: June 2023**
Bachelor of Science in Computer Science   *Philadelphia, PA*
Minor in Entrepreneurship and Innovation
Relevant Coursework: Data Structures, Systems Programming, AI, Programming Language Concepts

WORK EXPERIENCE

Susquehanna International Group   **Bala Cynwyd, PA**
Software Development Co-op, Energy Desk   *March 2021 - September 2021*
- Developed efficient software pipelines using Python to deliver market data to team of 12 traders
- Designed and implemented REST API to serve high-resolution tick data from Intercontinental Exchange
- Conducted UI testing using Selenium to improve reliability of market data frontend

Linode   **Philadelphia, PA**
Software Engineering Intern, API   *March 2020 - March 2021*
- Contributed new code and tests to Linode API v4 using Python and Flask for 800k+ customers
- Engineered and deployed SSL certificate upload feature for Object Storage service
- Decreased API response time by 20% by measuring and configuring app logging using Salt
- Accelerated developer metrics tracking for managers by building Vue interface for GitHub Enterprise API

WeWager   **Philadelphia, PA**
Co-Founder, CTO   *May 2019 - August 2021*
- Implemented Django REST API backend for sports application with 200+ beta users
- Designed and developed mobile app using Flutter for iOS and Android

PROJECT EXPERIENCE

DragonsTV Graphics Playout Software   **March 2019 – Present**
- Developed TV graphics software using Python Asyncio and WebSockets to display real-time data
- Yielded savings of $10,000+ for athletics department by not purchasing commercial graphics software
- Used on broadcasts with NBC Sports Philadelphia and FloSports

gscheme   **July 2021**
- Designed a Scheme-like interpreted programming language and parser using Python
- Includes features such as higher-order functions, lambdas, basic standard library, and file/network IO

Astra   **December 2020**
- Built a Python web framework similar to Flask, with full WSGI support
- Added features such as URL parsing, blueprints, and middleware

SKILLS

- *Programming Languages:* Python, Java, JavaScript, Dart (advanced), C/C++, Swift, Go, HTML/CSS (intermediate)
- *Technologies:* Docker, Kubernetes, Salt, Linux, AWS, SQL, Git
- *Frameworks:* Django, Flask (advanced), Express, Vue, Flutter (intermediate)

HONORS AND ACTIVITIES

- Teaching Assistant for CS 164: Introduction to Computer Science
- Dean's Ambassador for College of Computing and Informatics
- Social Committee Chair for All-College Choir
- A.J. Drexel Scholarship Recipient, 2018-2023
